

Conversations about illness, death and dying are never easy. Whether death comes suddenly or after prolonged illness, most of us are not comfortable discussing our medical wishes or end-of-life plans with our loved ones.

However, being prepared ensures that your final wishes are followed. It is important for you and your loved ones to understand the Church's teachings on end-of-life decisions.

Advance planning on your part keeps your family from having to make these difficult decisions.

This free online webinar series is for people of all ages and life situations: singles, parents of young families, those caring for aging parents and those facing illness or death. There will be no solicitation during the webinar.
