

St. Theresa Families,

After reaching out to the Health Department we have confirmed that we are able to remove the requirement for additional COVID testing following a positive test result.

Please see the update highlighted below.

Reporting Cases

- The positive case is reported to the Health Department and the Catholic Schools Office
- The Health Department determines if any individuals were in close contact with the individual who tested positive and those individuals MUST quarantine
 - **Positive Cases MUST: quarantine for 10 days, with no symptoms for 3 days**
 - **Exposure Cases MUST: quarantine for 14 days**
 - School is required to follow Health Department and TCCBED protocols, NOT CDC

Love and Light,

Sarah Fox
Assistant Principal
St. Theresa Catholic School in Memorial Park
