

June 12, 2020

Dear Parents,

Congratulations! We survived one of the craziest school years ever! We will proceed in faith that we will be allowed to resume a regular school schedule in the fall and plan to open to the maximum extent allowable in August. We have a very diligent and dedicated team of teachers, staff and parents who will continue to work over the summer to analyze plans and best practices for safely re-opening. Additional health and safety supplies are already being purchased and increased safety protocols are already being planned with teachers, maintenance, janitorial staff and after-school care with KV counselors. Any students, staff or visitors exhibiting symptoms or signs of illness will not be permitted on campus.

At this time we are planning for the following scenarios for re-opening, which will be determined by health officials before the beginning of school. Those scenarios include:

1. Health officials allow ALL students to return to campus
 - All students will be on campus and follow advanced health protocols and social distancing
 - Large group gatherings will be restricted and alternate plans will be created for arrival, dismissal and lunch
 - Advanced health protocols will be implemented, including but not limited to: daily health screeners and temperature checks; social distancing; sanitizing surface areas and bathrooms throughout the day; restricted campus visitors; required face masks for adults; mobilizing students to prevent cross-contamination throughout campus; outdoor learning when possible
2. Health officials allow only a restricted number of students to return to campus
 - Determine alternate schedule to support 50% of students completing On-campus Learning and 50% of students completing Distance Learning
 - Large group gatherings will be restricted and alternate plans will be created for arrival, dismissal and lunch
 - A Distance Learning Committee is working throughout the summer to maximize effective Distance Learning plans and improve remote instruction.
 - Advanced health protocols will be implemented, including but not limited to: daily health screeners and temperature checks; social distancing; sanitizing surface areas and bathrooms throughout the day; restricted campus visitors; required face masks for adults; mobilizing students to prevent cross-contamination throughout campus; outdoor learning when possible
3. Hybrid plan for blended On-Campus Learning and Distance Learning
 - A Distance Learning Committee is working throughout the summer to maximize effective Distance Learning plans and improve remote instruction for:
 1. Families who elect to have students continue distance learning in August due to health concerns
 2. Students who may need to quarantine during the year
 3. Students with other health concerns during the year
4. Health officials close all schools and we must continue Distance Learning
 - A Distance Learning Committee is working throughout the summer to maximize effective Distance Learning plans and improve remote instruction.

Attached to this letter is a link to a survey. Please complete the survey to ensure that we are providing the optimal learning experience for your child. We will be using the information provided to plan for instructional delivery for next year. Thank you for your support.

May you all enjoy a peaceful and restful summer!! We will continue to share any new updates we receive throughout the summer. We cannot wait to see you all on campus again!!!!

Blessings,

Melissa Ilski | Principal
