Message from Our Lady Queen of Peace, given to Mirjana Dragicevic Soldo for non-believers, July 2, 2018:

**DO YOU
BELIEVE?**

I am the mother of all of you and, therefore, do not be afraid because I hear your prayers.

I know that you seek me and that is why I am praying to my Son for you, my Son who is united with the Heavenly Father and the Holy Spirit-the Paraclete-my Son who leads souls to the Kingdom from where He came, the Kingdom of peace and

light. My children, you are given the freedom to choose, but, as a mother, I implore you to choose the

freedom for the good. You, with pure and simple souls comprehend-even if sometimes you do not understand the words and within yourselves you feel what the truth is.

My children, do not lose the truth and true life so as to follow the false one. By life in truth, the Kingdom of Heaven enters into your hearts, and that is the Kingdom of peace, love and harmony. Then, my children, there will not be the selfishness which distances you from my Son. There will be love and understanding for your neighbors. Because, remember, again I repeat to you, to pray also means to love others, your neighbors, and to give yourself to them.

Love and give in my Son, and then He will work in you and for you. My children, ceaselessly think of my Son and love Him immeasurably and you will have true life, and that will be for eternity. Thank you, apostles of my love. "

EUCCHARISTIC MIRACLE IN BUENOS AIRES: *The most recent Eucharistic miracle recognized by the Church authorities occurred in 1996 in the capital of Argentina—Buenos Aires.*

A consecrated Host becomes flesh and blood.... *At seven o'clock in the evening on August 18, 1996, Fr. Alejandro Pezet was saying Holy Mass at a Catholic church in the commercial center of Buenos Aires. As he was finishing distributing Holy Communion, a woman came up to tell him that she had found a discarded host on a candleholder at the back of the church. On going to the spot indicated, Fr. Alejandro saw the defiled Host. Since he was unable to consume it, he placed it in a container of water and put it away in the tabernacle of the chapel of the Blessed Sacrament.*

On Monday, August 26, upon opening the tabernacle, he saw to his amazement that the Host had turned into a bloody substance. He informed Cardinal Jorge Bergoglio (Auxiliary Bishop at that time, now Pope Francis), who gave instructions that the Host be professionally photographed. The photos were taken on September 6. They clearly show that the Host, which had become a fragment of bloodied flesh, had grown significantly in size. For several years the Host remained in the tabernacle, the whole affair being kept a strict secret. Since the Host suffered no visible decomposition, Cardinal Bergoglio decided to have it scientifically analyzed.

On October 5, 1999, in the presence of the Cardinal's representatives, Dr. Castanon took a sample of the bloody fragment and sent it to New York for analysis. Since he did not wish to prejudice the study, he purposely did not inform the team of scientists of its provenance. One of these scientists was Dr. Frederic Zugiba, the well-known cardiologist and forensic pathologist. He determined that the analyzed substance was real flesh and blood containing human DNA. Zugiba testified that, "the analyzed material is a fragment of the heart muscle found in the wall of the left ventricle close to the valves. This muscle is responsible for the contraction of the heart. It should be borne in mind that the left cardiac ventricle pumps blood to all parts of the body. The heart muscle is in an inflammatory condition and contains a large number of white blood cells. This indicates that the heart was alive at the time the sample was taken. It is my contention that the heart was alive, since white blood cells die outside a living organism. They require a living organism to sustain them. Thus, their presence indicates that the heart was alive when the sample was taken. What is more, these white blood cells had penetrated the tissue, which further indicates that the heart had been under severe stress, as if the owner had been beaten severely about the chest."

Two Australians, journalist Mike Willesee and lawyer Ron Tesoriero, witnessed these tests. Knowing where sample had come from, they were dumbfounded by Dr. Zugiba's testimony. Mike Willesee asked the scientist how long the white blood cells would have remained alive if they had come from a piece of human tissue, which had been kept in water. They would have ceased to exist in a matter of minutes, Dr. Zugiba replied. The journalist then told the doctor that the source of the sample had first been kept in ordinary water for a month and then for another three years in a container of distilled water; only then had the sample been taken for analysis. Dr. Zugiba's was at a loss to account for this fact. There was no way of explaining it scientifically, he stated. Only then did Mike Willesee inform Dr. Zugiba that the analyzed sample came from a consecrated Host (white, unleavened bread) that had mysteriously turned into bloody human flesh. Amazed by this information, Dr. Zugiba replied, "How and why a consecrated Host would change its character and become living human flesh and blood will remain an inexplicable mystery to science—a mystery totally beyond her competence."
