Dear Parishioners,

Happy St. Joseph's Day! On this day, a number of us would have St. Joseph's Pastry to celebrate the feast with friends and family. Unfortunately, the climate of the time in which we are necessitates us to take different measures.

In times of stress and real concern, we need to cling ever more closely to our faith. The Lord will get us through this time of trial as He always does with any upset or difficulty you and I experience in our everyday lives. On this day especially we call upon the foster father of Jesus, St. Joseph, who took loving care and guarded Mary and Jesus. We ask him to guide and protect our families and loved ones and help us to remain positive and hopeful in spite of what we are going through.

One of our Parish's values is that we are a Parish community working together out of love for God. This is what we believe and live by. During these difficult times, we need to step up and really put those words into action. Many of us know elderly people whose health is compromised or people who are bedridden and cannot get out to get basic necessities. I am asking you to please forward their names, addresses and phone numbers to me and we will do all we can to help. We have a number of people who have reached out and offered their assistance to help us with this task.

Please email me at shchartsdale@gmail.com

Prayerfully,

Rev. Michael Moon
