Construction Update: Many things have been accomplished over the last few weeks that we would like to acknowledge:

- Work to replace the copper on the dome of Fr. Bernard Hall is complete.
- Work on the tuck pointing of the church continues. The large bags in the green space are supplies for the mortar to continue with the tuck pointing work.
- Iron work on the tie rod system is ongoing.
- The new frames for the transept windows have been installed and are ready for the stained glass.
