**Construction update:** After months of engineering work and testing, we finally have a method that works to reinforce our buttresses. You will notice that the buttresses closest to Fr. Bernard Hall are finally being completed. Once all of the work is completed for this side of the church, work on reinforcing the buttresses on the other side can begin. Once the brickwork on the outside of the church has been completed work INSIDE the church can begin. We are praying that once work on the inside begins we will have a better idea of when we might be able to move back into our historic church. Just as information some of the items left on our list that need to be addressed prior to moving back into the church are: the steeple needs to be reattached, all three altars need to be reinstalled, all 6 murals need to be reinstalled (one must be restored onsite), the pipes and organ need to be reinstalled, plasterwork, painting, stenciling, electrical work, outside storm windows installed, stained glass windows installed, pew refinishing & installation, floor refinishing, stations of the cross refinished and installed, confessionals reassembled and put in place (may require refinishing) both sacristies completely rebuilt. None of this includes cleaning or removal of scaffolding or landscaping.

**FIRE! FIRE! FIRE! FIRE! FIRE! FIRE!**

**Please help us to keep our chapels safe.**

Someone is moving the little plastic candles and placing them on top of candles that have already been burned. Please help us to stop this practice. Please help us prevent a fire on top of the damage we already have incurred. We have already lost four glass candleholders because of this. Please **DO NOT** drop used matches into the candles. This is **EXTREMELY DANGEROUS.**
