Year to date Offertory Collected: $615,618.17

National Collections
Catholic Relief Services: $75.00

Welcome to St. Martin de Porres Catholic School!
We offer a strong academic program, strengthened by core Catholic values, for students in grades PK3-8. Did you know:

• We have a 10:1 student/teacher ratio;
• Our Music Teacher is a Grammy Award winner;
• Over one-third of our 1st through 8th graders will be participating in the Private School Interscholastic Competition this month; and
• Our Archery Team has qualified for, and will be going to, the State Archery Tournament with hopes of qualifying for Nationals, as we did last year?!

For more information, check out our website: https://smdpcatholic.org/admissions

The Diocese of Fort Worth has created a dedicated web page in English and Spanish for the faithful, as well as the general public. Please visit this page frequently for the most up-to-date information about Coronavirus (COVID-19) precautions and liturgy adaptations: www.fwdioc.org/coronavirus-precautions
What is coronavirus disease 2019 (COVID-19)?
Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

Can people in the U.S. get COVID-19?
Yes. COVID-19 is spreading from person to person in parts of the United States. Risk of infection with COVID-19 is higher for people who are close contacts of someone known to have COVID-19, for example healthcare workers, or household members. Other people at higher risk for infection are those who live in or have recently been in an area with ongoing spread of COVID-19. Learn more about places with ongoing spread at https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html#geographic.

Have there been cases of COVID-19 in the U.S.?

How does COVID-19 spread?
The virus that causes COVID-19 probably emerged from an animal source, but is now spreading from person to person. The virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet) through respiratory droplets produced when an infected person coughs or sneezes. It also may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes, but this is not thought to be the main way the virus spreads. Learn what is known about the spread of newly emerged coronaviruses at https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html.

What are the symptoms of COVID-19?
Patients with COVID-19 have had mild to severe respiratory illness with symptoms of • fever • cough • shortness of breath

What are severe complications from this virus?
Some patients have pneumonia in both lungs, multi-organ failure and in some cases death.

How can I help protect myself?
People can help protect themselves from respiratory illness with everyday preventive actions.
• Avoid close contact with people who are sick.
• Avoid touching your eyes, nose, and mouth with unwashed hands.
• Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.

If you are sick, to keep from spreading respiratory illness to others, you should
• Stay home when you are sick.
• Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
• Clean and disinfect frequently touched objects and surfaces.

What should I do if I recently traveled from an area with ongoing spread of COVID-19?
If you have traveled from an affected area, there may be restrictions on your movements for up to 2 weeks. If you develop symptoms during that period (fever, cough, trouble breathing), seek medical advice. Call the office of your health care provider before you go, and tell them about your travel and your symptoms. They will give you instructions on how to get care without exposing other people to your illness. While sick, avoid contact with people, don’t go out and delay any travel to reduce the possibility of spreading illness to others.

Is there a vaccine?
There is currently no vaccine to protect against COVID-19. The best way to prevent infection is to take everyday preventive actions, like avoiding close contact with people who are sick and washing your hands often.

Is there a treatment?
There is no specific antiviral treatment for COVID-19. People with COVID-19 can seek medical care to help relieve symptoms.

Easter Lily and Decoration Donation

ORDER FORM

Lilies that will decorate our Parish Hall and Chapel for Easter may be dedicated in honor of or in memory of a family or individual for a donation of $20 per plant. Names will be listed in our Easter bulletin.

Please fill out this form and place it in the collection basket or return it to the parish office by Friday, April 1st. Names received after this date will not be included in the bulletin due to printing schedules.
