

Campaign Update #52: Inside the new SMCHS campus and St. Mary's Grade School Addition

It is summer break for students, but there is an incredible amount of work happening inside our schools as we prepare the new SMCHS campus and the addition to St. Mary's Grade School to open this fall. Enjoy the photos of the progress!

St. Mary's Central High School

The sign is going up at the Our Lady of Victory Stadium, the entrance to Smrekar Field. The field goal posts are in and the bleachers are being installed. We look forward to inviting our Saints fans (and rivals) to our games in the Athletic Center.

The new library and media center will feature a modern space for our students to work on their online classes, research, projects, meet in groups and study. We've

already installed the fireplace, main library desk and carpet. The renderings below show the overall design concept.

Carpet is being installed in the classrooms and throughout the Academic Center. The furniture will be moving in soon!

The renderings below show a view of the main Academic Center with the furniture that will accommodate many groups of students.

The student study covers in the stairways will feature a variety of unique seating options.

The Forum Room will offer multi-layered seating options.

The example below is the design for a religion classroom.

Students will enjoy their lunch break in the new Saints Cafe, with a variety of seating options.

Construction continues on the Our Lady of Victory Chapel. This is the current view from the exterior, looking at the chapel dome and the stained glass windows.

The main gym is getting some Saints blue stripes!

Donor recognition walls are being placed in the new campus this fall. You can choose the area where you would like your family's name to be honored.

We will be unveiling beautiful donor walls within each area:

- Academic Center
- Athletic Center
- Our Lady of Victory Chapel
- Fine Arts Center

Please make your 3-5 year pledge now to help us keep the promise and build the future of our schools for future generations.

St. Mary's Grade School Addition

The new library, music room and classrooms in the addition at St. Mary's Grade School are almost ready for everything to move in this summer! Take a look at the photos below that showcase the beautiful new addition we will dedicate in August, soon after the school year begins.

Looking down the wide hallway, it's easy to imagine students moving around to their classrooms. Each student will have a new cubby and hook for their personal belongings.

The new classrooms feature beautiful cabinetry and smart boards, with carpet in the student desk areas and hard floor areas near the sink. Each classroom also has direct access to a restroom.

The exterior of the addition features a brick pattern to match the current school and church. This is the view of the addition on the north side.

This is the entrance of the school and church on the south side of the addition.

Pray. Discern. GIVE.
