

## Additional IXL Information

Dear Parents,

This summer your child will be working in the IXL program for Math. Each student should spend a minimum of 10 minutes a day and maximum of 60 minutes a week on skills. They should master the addition and subtraction skills with 85% accuracy.

To get to the skills go into the IXL website. Click on the skills tab. Go to Skills Analysis. Type in "2 addition". Work on each skill until 85% mastery is reached. Once mastered, go back to the Skill Analysis box. Type in "2 subtraction". Work on the subtraction skills until 85% mastery is achieved.

We will not be reviewing addition and subtraction skills very long, so it is very important that your child reviews these skills this summer.

Thank you for your assistance with this. We look forward to working with your children this coming school year.

Have a great summer

Mrs. Karcz and Mrs. Zimney
