

# *Pastor's Message*

June 18, 2020

To change something that is wrong, you and I must squarely face it. Change will not arrive if we do not look directly at what is wrong. Unfortunately, looking around, beneath, and/or above the wrong, are ways some of us select to right the wrong which exists. By doing so, we'll get to view just sides of the wrong, but never the full picture of what is precisely is the cause.

However, to squarely face the wrong, requires a great degree of courage. How much courage is necessary? The amount of courage necessary must be greater than the want to allow the things which are wrong to remain just as they are.

If it's time to change something that is wrong in your life, give it your best look. What you'll see in the beginning may not be pleasant. But, by beginning to look at straight on, united with a desire to change it, most likely it will be the last time the wrong in your life will look so bad!

Then, anytime afterward, since change has begun to right the wrong, you know things have already improved!

The following is excellent advice from Rick Warren, a Christian pastor and author. It is a good summary of this message.

“We are products of our past, but we don't have to be prisoners of it.”

Peace,  
Fr. Marc
