April 24, 2020

What is the “NORMAL” to which we wish to return?

1. The normal we wish to return should be an experience of life, pleasing to God and His creation.
2. It should be one in which the presumption is that every person is my brother or sister, a child of the same heavenly Father I shall love. Save, he/she is habitually treating me less than I deserve, doing me grave harm.
3. A normal whereby we do not forget the blessings and privileges which come with living in the greatest nation on earth.
4. One in which there is utmost respect for the person who is yet to be born, so when that birth occurs, he/she will find the possibility that life is definitely worth living in the society which endures.
5. A normal without forgetfulness of what was lost during this period of peculiar living, which has been a trudge through an unimaginable void of treasured human freedoms and simple pleasures we knew so well, but have faded into the past.
6. A daily and deep appreciation for the people who were willing to sacrifice their lives for us, so we have the impetus to do the same, if the circumstances calls for us to do so.
7. Humble thanks for being one of the select to be able to read this message, because some known to be with us just a short time ago, are now gone.

God bless you,  
Fr. Marc
