

# Pastor's Message

May 2, 2020

Read a quote yesterday which made a lot of sense. Most especially, it made a lot of sense as we continue to live in society whereby so much of what we were able to do, cannot be done now.

The quote: “Happiness is not about getting all you want, it is about enjoying all you have.”

- If you have your health, you should be happy.
- If your family members are experiencing the same, you should be happy.
- If you have enough to eat, you should be happy.
- If you have the ability to leave your home to go outside, you should be happy.
- If you have a job, you should be happy.
- If you have good neighbors, in the midst of living in a nice town, you should be happy.
- If you have little or no pain in your body, you should be happy.
- If you feel things will work out, in spite of troubles, you should be happy.
- If you have people who want to spend time with you, you should be happy.
- If you have recently received a special thanks for what you have done, you should be happy.
- If you have overcome something that was hard to beat, you should be happy.
- If you have finished reading this message, then realized even more than you did prior to receiving it, how truly fortunate you are, there is only one thing you should do right now.

Undeniably and without reservation, you should be happy!

God blessed you!

Fr. Marc
