

Pastor's Message

July 2, 2020

One of the most imaginative, brilliant persons of the twentieth century was Walt Disney. But, did you know as a young adult he was fired from his job at a newspaper because he was found to “lack creativity?” Soon thereafter, he tried to form his own company. However, that company quickly went bankrupt! Mr. Disney was totally out of money, at that point. Nevertheless, as you are aware, eventually he became a magnificent success.

There had to be great determination for Mr. Disney to achieve what he did, after the lack of successes earlier in his life. What he did is realization of the phrase, “He who wants milk should not sit himself in the middle of a pasture waiting for a cow to back up to him.”

Wikipedia defines determination as “a positive emotional feeling that involves persevering towards a difficult goal in spite of obstacles.” The good example of Walt Disney is one of countless true stories which can be found about individuals “persevering towards a difficult goal in spite of obstacles.”

Maybe, someday you can be one of the individuals we tell the story that by an execution of determination, vast obstacles were overcome. Yes, if you are reading this MESSAGE, then the message is meant precisely for you - the next Walt Disney!

Remember, if you want the milk, don't wait for the arrival of the cow, as you sit idle in the pasture.

Peace,
Fr. Marc
