St. Francis of Assisi Parish Capital Campaign

Building a Building

We Are In This Together

We are excited about our progress toward meeting our construction goals.

St. Francis of Assisi needs your encouragement and support to get the new Parish Hall built. We have raised enough money to get building permits started. This requires 25% cost of construction, cash in hand or \$2,400,000. Then we need to have 50% cost of construction, cash in hand, \$4,700,000 to issue requests for construction bids. To start actual building, we will need 65% of construction cost, \$6,500,000. At end of construction, we will need 100% of the construction cost.

Where are we? We are at the building permit stage. This is an expensive and time consuming stage. We have sent an application and a deposit request to the Diocese for three permits that are required by the City of La Quinta. The architect will have to provide detailed information to complete the applications.

Toward the end of permit application and approval, we will request engineering and construction bids.

We are excited because we are progressing rapidly toward submitting building permit applications and meeting our goals.

We expect to start construction during the summer of 2020 and complete construction during summer or fall of 2021.

With your support, we will meet our anticipated building goals.

We will keep you posted on the building progress.

Thank you for your support in this important project.

Fred Saunders

Construction Coordinator
