Dear Senator Cory Booker,

I strongly urge you to retain longstanding laws that prevent taxpayer funds from being used to pay for abortions in the District of Columbia, through foreign assistance, and for federal employee health plans that cover abortions.

For decades, these laws along with the Hyde Amendment have represented a bipartisan "compromise" on abortion. Regardless of one's view on abortion, there's been a consensus that taxpayers shouldn't have to fund it. These laws-credited with saving millions of lives-have been enacted and signed into law every year whether Congress and the White House were led by Republicans or Democrats.

Abortion isn't health care; it's the antithesis of healthcare. Far from promoting "women's health" abortion often has disastrous effects on women's physical and mental health and on their relationships. While abortion is a divisive issue, an overwhelming majority of Americans, including low-income women and women of color, who are most impacted by it, support Hyde and Hyde-related policies that prohibit taxpayer funding of abortion in the U.S. and overseas.

I strongly urge you to preserve Hyde and all life-saving appropriations riders during the 117th Congress and to oppose any bill, including appropriation bills, that expand taxpayer funding of abortion.
