

INTERNET USE REQUEST FORM

INTERNET access is available in our Library Media Center, Computer Lab and all classrooms. All Internet use will be supervised by an instructor. Teachers will educate our students about appropriate online behavior, including interacting with other individuals on social networking websites, in chat rooms and cyber bullying awareness responses. You may request that your child use the Internet by filling out the statement below and having your child sign the Acceptable Use Policy. A separate request must be completed for each child.

The school will determine when the students in various classes are scheduled for Internet activities.

Improper use of the Internet will result in disciplinary action.

I request that Holy Trinity Catholic School allow:

(Name of student)

to use the Internet under the supervision of an instructor.
