

**WELCOME TO 7TH GRADE
WE LOVE MATH AT YC!!**

Summer 2020

Dear 7th grade math student:

Along with practicing your basic facts (times tables) over the summer, please work on the enclosed packet. It contains a number of math computation and skills review problems. They are concepts with which you should be familiar. In 7th grade you will build upon the knowledge you already have in these particular areas. Even though this packet will not be collected for a grade, it is extremely helpful for your success in Pre-Algebra class. An answer key is included in order for you to check your work.

**Have a wonderful summer,
