

## FOURTH GRADE SUMMER MATH

Please log on to Reflex Math ten times this summer and work until you get a green light. These ten green lights must be earned before the first day of school. You will be working on addition and subtraction facts as a review for the beginning of the school year. We will start with multiplication facts when the new school year begins.

Look for fun ways to practice Math skills all summer. Here are a few examples: Compare prices in the grocery store. Estimate how long an activity will take. Look for symmetry in seashells. Play board games such as Yahtzee, Monopoly, Scrabble, and Life.

**\*\*New students-Please contact the school for Summer Math requirements.\*\***
