# 2018-2019 CCD Project

Dear Parents and Parishioners,

This year our CCD project is again to help the people of Haiti.

- ❖ This year we would like to provide money for Powdered Milk. Program cost is \$125 per child per year. Children who are 7 and 8 months old receive Gallia milk, which is designed for babies this age to carefully transition them to cow's milk. Children from 9 months receive whole milk powder and iron once a month until one year of age, unless the child is still malnourished.
- ❖ Solar Light Kit: Cost is \$75 per kit. Most families have no electricity in their homes, and your gift will provide a family with a simple system composed of 2 LED lights, a radio, a small solar panel, and a rechargeable battery for the radio. The lighting will help children study in their houses rather than to walk to find a street lamp.

We have participated in a project for Haiti for a few years now and the children really enjoy it. It will be a great way for our kids to help those in Haiti.

Last year we raised over \$ 1,950 for our efforts...a total of 13 goats. I would like to set our goal this year for 10 units of milk and 10 solar light kits. A goal of \$2,000.

Each class will have a donation jar and children should bring whatever they can each Sunday. There will also be a donation jar in Church.

I ask that you support this Corporal Act of Mercy to feed the hungry and to help those who are not as fortunate as we are.

Sincerely,  
James Hay
