## Fundraiser: Christmas flowers and wreaths orders Due MONDAY!

Last week's bulletin was incorrect. All wreath and flower orders are due this Monday in the Parish Office. The original announcement on this has been correct with all orders due by October 15th. Proceeds from this fundraiser pay for the meals not covered by the initial cost of the March for Life trip. Thank you for your support!

## From the Pastor's Desk...

You may have read in the bulletin that I will be leading a Holy Land Pilgrimage next November (2019). It will be nice to be able to share some of the sights and experiences that I was able to come across during my sabbatical this past Spring. A pilgrimage like this is usually a great once-in-a-lifetime opportunity (unless you are a priest). 😊 It is amazing to think of how you are walking where Christ once walked, taking a boat ride on the sea that Christ once boated on (and walked on), and visiting the Holy City of Jerusalem that was so central to his life. Just how real the Incarnation was and is! If you are interested in learning more, please join me for an informational meeting this coming Thursday in St. Peter's Parish Center at 7:00 p.m.

Hope to see you next Saturday at our annual St. Colman's Oktoberfest!

In Christ,  
Fr. Hahn

## ANOTHER LOOK AT CONTRACEPTION

Through the Church's teaching, God invites us to a fuller, richer, deeper way of life and love.

*To some, the Catholic Church's consistent teaching against birth control may seem outdated. Yet with each passing year, evidence of contraception's negative consequences keeps piling up, revealing profound repercussions on women, children, families, and society.*

### \* Some Contraceptives Can Cause Early Abortions

Advocates of contraception claim it doesn't cause abortions. However, that claim rests on an inaccurate redefinition of "pregnancy" as beginning only after an embryo successfully implants in the mother's uterus. This, then, excludes from the meaning of abortion all pills and devices that cause the death of an embryo before implantation. Yet it's scientifically indisputable that a new human life begins when an embryo first forms at fertilization—6 to 8 days before implantation.

Physicians' textbooks and handbooks reveal that some types of contraception sometimes work by preventing a living, developing, embryonic baby from reaching the uterus and successfully implanting, which results in his or her death.<sup>1</sup>

### \* Physical Risks for Women

Contraception also presents significant health risks for women. Combined oral contraceptives (COCs), as well as contraceptive patches and the "ring," have long been known to cause cancer (of the breast, cervix, and liver).<sup>2</sup> They also substantially increase the risk of potentially life-threatening blood clots,<sup>3</sup> which have resulted in heart attacks, strokes, and hundreds of deaths in healthy young women.

Intrauterine devices (IUDs) present other risks. For example, the following are just some of the warnings by the Food and Drug Administration (FDA) about one common IUD: septic shock and death may occur in the event of pregnancy; about half of pregnancies are ectopic; the device may embed, perforate, or penetrate the uterine wall, resulting in its migration outside the [uterus], adhesions, peritonitis, intestinal perforation/obstruction, abscesses, and erosion of adjacent internal organs.<sup>4</sup>

### \* From Pill to Poverty

Without the contraceptive pill, the sexual revolution couldn't have happened. Few women were willing to risk pregnancy outside of marriage. Economist George Akerlof has shown how that dynamic abruptly changed with the contraceptive pill, leading to "the feminization of poverty."<sup>5</sup>

Told that the pill would prevent pregnancy, women had sex without the promise of marriage. Because women controlled the decision to contracept, give birth, or undergo abortion, however, many men reasoned that they were not responsible for children conceived outside marriage. Indicating

men's denial of responsibility: "shotgun marriages" soon plummeted, while out-of-wedlock births nearly tripled. In less than two decades (1965-1984), abortions among unmarried women grew from an annual 88,000 to 1,271,000.

Throughout the past decade, at least 40 percent of children each year are born to unmarried mothers who are often left struggling in poverty to raise children alone. According to Child Trends, "in 2015, 43 percent of children living in single-mother families were poor, compared with 10 percent of children living in married-couple families."<sup>6</sup> Poverty and the absence of a child's biological father in the home are two of the strongest predictors of poor academic, emotional, and behavioral outcomes in children.

### \* Contraception Is Unreliable

How could abortions and nonmarital births skyrocket if women are contracepting? With typical use, most contraceptives are far from reliable, especially for teens, who are twice as likely as adults to become pregnant while using contraceptive pills, patches, or rings.<sup>7</sup> Every year, one million of the 11 million U.S. women on the pill become pregnant, and 40% of them undergo abortions.<sup>8</sup>

### \* What Does Our Catholic Faith Offer?

God's love is generous, sacrificial, life-giving, and forever. As humans made in God's image, we are called to imitate the eternal giving and receiving of love that

is the Holy Trinity. We can do this in a unique way through marriage—a vowed communion of a man and a woman who enter a "one flesh" union open to bringing forth a new human life. "The whole meaning of marriage is present and signified"<sup>9</sup> in each act of marital sex, so the love-giving and life-giving purposes of sex should not be separated.

At the same time, for serious reasons, in exercising responsible parenthood, a couple may "decide not to have additional children for either a certain or an indefinite period of time."<sup>10</sup> In these cases, "the Church teaches that married people may then take advantage of the natural cycles immanent in the reproductive system and engage in marital intercourse only during those times that are infertile."<sup>11</sup>

Thanks to the research of countless doctors and scientists, modern, fertility awareness-based methods of natural family planning rival and even surpass<sup>12</sup> the effectiveness of contraceptives while posing no risks to mothers or unborn children. In fact, couples using such methods report better sex, improved communication, and the ability to identify underlying causes of infertility.<sup>13</sup> (To learn more, visit [www.foryourmarriage.org/family-planning](http://www.foryourmarriage.org/family-planning).)

In short, through the Church's teaching, God invites us to a fuller, richer, deeper way of life and love.

## Living the Liturgical Year

*Celebrating Saints and Feasts to Enrich Hearts and Homes*

### October 16: St. Margaret Mary Alacoque, apostle of the Sacred Heart of Jesus

Margaret Mary's childhood was marked with heartache and sickness. She entered the order of Visitation nuns when she was twenty. She was known to be humble, simple and patient. After three years a nun she began receiving revelations from the Lord. She was chosen to arouse the Church to the passionate love of God symbolized by the Sacred Heart of Jesus. "Behold this Heart which has so loved men that it has spared nothing," Jesus revealed to her and promised 12 special privileges to those who honor His Sacred Heart. Sister Margaret Mary was ridiculed and treated poorly even by her own sisters in the convent, but she continued in her mission. Because of her perseverance and love, we have today the feast of the Sacred Heart of Jesus on the Friday following the Second Sunday after Pentecost. To learn more about Jesus' revelations to this saint and about the Promises of the Sacred Heart go to <https://www.catholicculture.org/culture/liturgicalyear/prayers/view.cfm?id=875>.

This is a great time to consider having your home **enthroned to the Sacred Heart of Jesus!** Check the bulletin or the parish office for information.

Since Margaret Mary was born in the Burgundy region of France we thought we would celebrate with a classic French dish of Beef Burgundy (Boeuf Bourguignon en Français). We chose the simplified version for ease but if you are interested in the authentic dish see Julia Child's recipe at <http://knopfdoubleday.com/marketing/cooking/BoeufBourguignon.pdf>.

#### RECIPE: Beef Burgundy (from catholiccuisine.com) Serves 4-5

##### Ingredients:

1 lb lean stew meat      2 cans mushroom soup  
2 cans mushrooms, drained Burgundy (or red) wine  
Extra wide egg noodles  
salt and pepper to taste

##### Directions:

In an ovenproof casserole add stew meat, soup (keep cans) and mushrooms. Fill the two empty soup cans with the wine and add to casserole dish. Mix

well, cover and stick in the oven at 325F. Cook for about three hours. If doubling the recipe or using 2 lbs meat, then add about 20 minutes to cooking time.

Take out of the oven and let rest while you make the noodles according to package directions. You may substitute mashed potatoes if preferred. Top with beef burgundy and enjoy with a fresh garden salad and a loaf of crusty French bread. Bon appetit!

#### Prayer to the Sacred Heart of Jesus

O most holy heart of Jesus, fountain of every blessing, I adore Thee, I love Thee, and with a lively sorrow for my sins I offer Thee this poor heart of mine. Make me humble, patient, pure and wholly obedient to Thy will. Grant, good Jesus, that I may live in Thee and for Thee. Protect me in the midst of danger. Comfort me in my afflictions. Give me health of body, assistance in my temporal needs, Thy blessing on all that I do, and the grace of a holy death. Amen.
