

*As we progress in our understanding and implementation of distance learning, we, the leadership, faculty and staff of Blessed Sacrament School, make this ten-point pledge...*

## **WE PLEDGE**

To provide every student at every grade level a continuous content-rich curriculum,

To offer whole-class and individual instruction using the most effective and engaging synchronous and asynchronous platforms and practices,

To balance high-quality on-screen learning with unplugged learning activities involving personal interactions and relationships,

To personalize learning to the interests and aspirations of our student-scholars and differentiate content and delivery for their innate abilities and potentials,

To meet effectively the special learning needs of students with exceptionalities,

To provide meaningful and multiform assessments that guide teacher instruction and assist students and parents with understanding the students' mastery of content and skills,

To compassionately support the social and emotional needs of our students in this time of uncertainty and widespread anxiety,

To ensure that our students are safe when online and their privacy secure,

To communicate regularly and meaningfully with parents, our partners in education,

To ensure a fully Catholic education under the inspiration of Christ the Teacher whom we pray will inform our teaching and guide our students' learning.

*While our school building may be closed temporarily, the hearts and minds of our students remain open—open wide to faith and learning! And although we remain apart for the health and safety of our students and families, we are united as one community joined together in the Body of Christ.*
