

Lunch Program for the 2020-21 School Year

Greeting Saint Maria Goretti School Families:

Food 4 Life is excited to continue to provide lunches for the students, faculty and staff again this year! We are all aware of the new conditions we are living with due to the Covid-19 virus. Please know that we are working closely with the school administration to take every precaution to ensure the safety of your children. We will adhere to federal and local direction regarding health and safety.

Food 4 Life will continue to provide a variety of fresh meals prepared daily that will include fruit or vegetable items and a choice of milk or water to provide a well-balanced meal. There will be several options available daily (see menu attached). In addition, snacks and drinks will also be available for purchase.

Meals may be purchased through a previously set up lunch account or paid with cash. We encourage everyone to set up a lunch account to help us minimize contact and maintain social distancing protocols. Food 4 Life uses DineRite (DRX) for our lunch management system. DineRite is a very user friendly, web-based software that can be easily accessed from any device with an internet connection. To set up an account, please complete the lunch account form and return to us via email. You will then receive instructions including a registration key which will now allow you to manage your child's account. An automated email notification will be sent to account holders once the lunch account balance falls below \$15.00 as an easy reminder to replenish funds. Please remember to notify us if your email address or phone number changes so that you will not miss notifications. When the lunch account no longer has money available only a cheese sandwich may be purchased until funds are replenished.

It is our honor to continue to serve the Saint Maria Goretti School family. We encourage you to utilize the lunch program and look forward to feeding your children with their safety as our priority.
