Parent of Parish School of Religion,

The Diocesan Covid Task Force advising the Office of Catholic Schools - composed of principals, teachers, and medical professionals – has been meeting throughout the summer to assess Covid-related guidance given to the schools of the Diocese.

This guidance includes:

- Students who are experiencing illness or symptoms **MUST** stay home. A daily home health check is required for all students.
- For any cases of Covid, the policies of the local health department for quarantining and reporting **MUST** be followed.
- Normal classroom instruction will resume without hybrid learning, digital, or all-remote options. Locally determined support will be provided to students who are required to quarantine.
- Continued enhanced sanitation procedures of the facility and procedures allowing for frequent hand washing.

St. Joseph will sanitize classrooms on a regular basis.

- Social distancing is not required but continues to be recommended by the Ohio Department of Health.

St. Joseph Parish will have three feet between students.

- Continue taking the temperature and sanitizing hands of anyone entering the building during the PSR sessions.
- Masks are strongly recommended indoors for all non-vaccinated individuals, especially children under 12 years of age. Local mandates may be temporary and reviewed regularly as conditions change.
- Vaccinations continue to be encouraged by the Diocese but are not mandatory.

This waiver is to designate that your child(ren) will not wear a mask during the Parish School of Religion class and you will assume all the risks therein. This waiver can be updated at any time.
