\*EPA-Registered Label - EPA REG. NO. 84683-3-74771

\*\*Health Canada Registered Label - DIN 02415046

Accepted on Health Canada's interim measure List on: 2020-04.

VS-1000 powerful formula was intentionally designed with today's threats in mind. VS-1000 is a multi-purpose, germicidal, virucidal, and fungicidal cleaner and deodorizer that disinfects or sanitizes (non-food contact surfaces), cleans, and removes malodors from hard, non-porous, inanimate surfaces.

VS-1000 is on the EPA LIST N of products with Emerging Viral Pathogens AND Human Coronavirus claims for use against SARS-CoV-2.

Ideal for use with VSE Global Disinfecting Machines

**1 gallon of VS-1000 concentrate =  
12.8 gallons of disinfecting fluid**

### HYDROGEN PEROXIDE BASED DISINFECTANT

- No Toxicity
- No Asthmagens
- Non-Corrosive
- Biodegradable

#### MIXTURE RATIO:

10 OZ. VS-1000 PER 1 GALLON OF WATER

### RECOMMENDED LOCATION USE:

VS-1000 is a cleaner and deodorizer that disinfects or sanitizes, cleans, and removes malodors in one labor saving step. Recommended for use in, but not limited to:

- Schools
- Hospitals
- Nursing Homes
- Hotels & Motels
- Office Buildings
- Locker Rooms
- Cruise Ships
- Airports
- Restrooms
- Churches
- Warehouses
- Universities
- Gyms
- Retail Stores
- Households
- Auditoriums
- Casinos
- Supermarkets

<b>DRY TIME FOR TYPICAL SPRAY APPLICATION WITH VSE SPRAY EQUIPMENT</b>	Typically, VS-1000 dries within 2-5 minutes depending upon climate, air condition, humidity, etc. *Can achieve longer wet time with over-saturation application
<b>DWELL/CONTACT TIME</b> (DILUTE 10 OZ PER 1 GALLON OF WATER)	When using VS-1000, allow surfaces to remain wet for 5 minutes to kill HIV-1, Norovirus, and Feline Calicivirus. Allow a 10 minute contact time for all other organisms claimed.* *Refer to the VS-1000 label for additional organisms

**BEST PRACTICES:** VS-1000 is ideal for use with VSE Global Disinfecting Machines. To protect yourself and others while using VS-1000, we advise you to take the following precautions:

- Wear goggles, basic utility mask, and gloves when handling VS-1000 Disinfecting Concentrate, including when making dilutions.

**NOTE: ALWAYS USE PERSONAL PROTECTION EQUIPMENT WHEN SPRAYING DISINFECTING FLUIDS.**

- After using VS-1000, wash your hands thoroughly with soap and water before eating or preparing food, drinking, chewing gum, using tobacco, or going to the restroom.
- Do NOT spray around food or drink. VS-1000 is harmful if swallowed.
- If VS-1000 Disinfecting Concentrate contaminates clothing, remove immediately and wash thoroughly before reuse.
- Avoid contact with eyes. Causes substantial but temporary eye injury.
