

Exodus Bible Study Class 1 Transcript of Slide 4

**OUR PARISH
WEBSITE**

[For the first class we had audio and video difficulties so are providing transcript of Class 1. We will try to livestream again on March 5 for Class 2]

The other thing about the web site is as you can see I have a camera going, that is because studio assistant, Claire is streaming this live on our web site which appears on that. Hit the play button. It says "Live" and so if you find out you have to stay home, if you have your children that you want to have watch this and you can see that there is chat underneath, or if you have a question I invite them online to ask a question and if Claire sees one, she will let us know that there is a question online that someone out there has a question. So isn't amazing the technology we have today. Simple. What's also important is that if you have to miss a class, these will all be archived below. So you can just watch it and come to the next class.

The other thing I have also done you can see I have Class documents, so the sheet that you have there (class handout); if you have someone else that you want to make a copy for, you can download it, print it out and share it with someone. So, this is all we have available to us today.

Try to become familiar with our web site.
