Book of Exodus Class 1 Slide 8 Transcript

Goals for Today. We are going to talk about the significance of the Exodus for the Israelites and for the Christians. Because Exodus is not just for the Israelites. It is for us. We will talk about the Formation of the Book itself, how the book is divided and then how we begin to find meaning in the story of the Israelites. You all have in front of you, and for those who are online we have this (for handout see <https://www.princeofpeace.me/fr-daniels-bible-study>) you can download on our website where I have the schedule. This is also the Introduction. I have done this for you so you can just follow right along. On the second page is the homework, so I am going to give you that part so you can see that we are going to read Chapters 1 – 6. **Note:**

[There is a typo on the homework at the very top where it says (1:1-12:36) Should read 1:1-6:14-27]

So you can see (on homework page) you are going to start with Exodus Chapter 1 verses 1-7 and you are going to find out “how did the Israelites get to Egypt in the first place?” Then you are going to go all the way down to chapter 6. There’s only 6 chapters. *[Each question on the homework is about only 7 verses, sentences or so.]*

But, before you go to the next one, you will understand like “why the Israelites were being oppressed”. And the birth and adoption of Moses. These titles match exactly what’s in your Bible if you have the New American Bible. I did all the work for you. You just have to learn it.
