PACEM IN TERRIS

PEACE AND FREEDOM AWARD to

George F. Kennan

*PROFESSOR EMERITUS of the Institute for
Advanced Study, Princeton, New Jersey*

His distinguished career in the United States Foreign Service is an outstanding example for all men & women who professionally strive to build peaceful relations among the peoples of the world. **H**is timely & scholarly publications give needed encouragement & support to all who diligently struggle to save the Earth from war & nuclear holocaust. **H**is splendid personal witness & compelling writings are truly in the spirit of the encyclical PACEM IN TERRIS by Pope John XXIII. **W**e pray that his tireless efforts will hasten the day when nations "shall beat their swords into plowshares, and their spears into pruning hooks; nation shall not lift up sword against nation, neither shall they learn war anymore." ISAIAH 2:4
