

Our Lady of Ransom Church  
Conceptual Rendering

Our Lady of Ransom churchgoers will at long last have a worship space that will reflect their faithfulness and dedication to their church.

The attractive new church space will be an invitation to the broader community to join us in the joy of our Catholic faith.

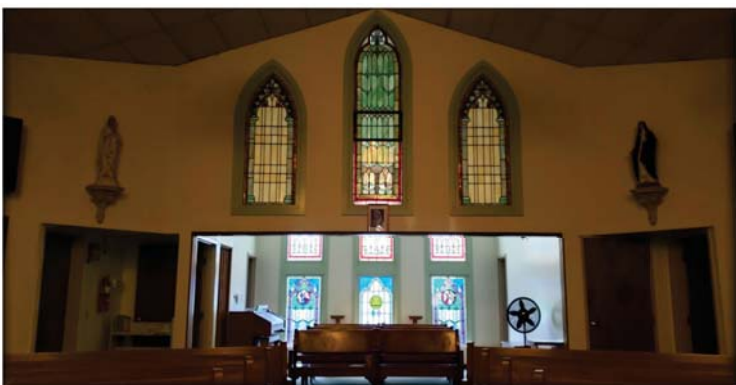

## St. Catherine of Sienna Church

New doors here will be a more functional and attractive welcome to the worship area.

New ceiling tiles, light fixtures and paint will refresh and renew this space.

Removing this archway will allow more natural light to fill the worship area.

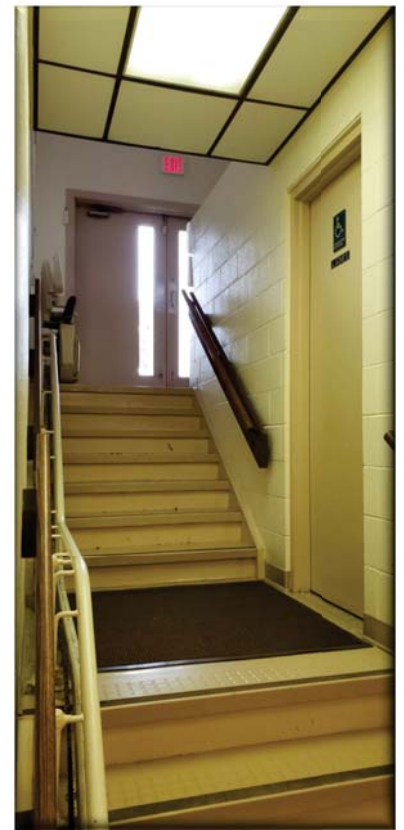

New speakers will have better sound quality and will be far less intrusive.

An elevator will allow easy access to the worship space and parish hall.

This currently empty gravel space will become easily accessible office and meeting space.

The parish hall will receive a much-needed refresh, and the kitchen will be updated for better functionality and ease of use.

Along with the new office space, the ramp will be re-worked.

## St. Mary's Church

Repainting the tin ceiling and elevating the altar will refresh this charming historical church.
