Perhaps no other encyclical in the history of the Church has received so much ridicule and caused such controversy as *Humanae Vitae*. Even today, 50 years later, it still evokes heated discussions and debates, often from people (including some priests) who have never read the document. Yet when encouraged to read the encyclical, one quickly learns of its profound teaching and defense of God's divine plan for human sexuality, marriage, family and life. The Church, in this encyclical, is preaching Good News and is pro-love and pro-life

We welcome Fr. Paul Dede who will celebrate our weekend Masses. Let us all Welcome Him.

At 6 months I rolled over today!

The baby can now roll over inside the womb. Her oil and sweat glands are functioning. A white filmy layer called vernix covers the baby and protects her delicate skin from the surrounding amniotic fluid. This waxy substance will be quickly absorbed into her skin soon after she is born. She can now respond to sound. Her lungs are fairly well developed and she would stand a good chance of survival if born at this time.
