

Rx Smart SavingsSM Program

Save on your prescriptions

Your employee benefits include access to the Rx Smart Savings program from Meritain Health. This program can help you save on the cost of your medications.

With Rx Smart Savings, you and your doctor are in control

If your prescribed medication qualifies for Rx Smart Savings, a pharmacist or pharmacy technician from the program will contact your prescribing doctor. He or she will work with your doctor for opportunities to save on the cost of your medications. If your doctor approves a prescription change, Rx Smart Savings pharmacy staff will contact you for approval. Often, you will be given the option to switch to lower cost drugs, including generics. Your participation in Rx Smart Savings is totally up to you.

Generics are safe and effective lower-cost medications

It's important to know that generic drugs are a safe alternative to brand-name drugs. They are monitored, regulated and approved for safety by the United States Food and Drug Administration (FDA). If you change to generics, your prescription will be just as effective as higher-cost brand-name medications.

It's easy to join Rx Smart Savings

To join this program, you don't need to take action. If you are prescribed a qualifying medication, an Rx Smart Savings pharmacy staff member will reach out to you. You'll be able to join right over the phone and your lower-cost drug will be ready for you at your next refill. It's that easy!

Do you have questions about Rx Smart Savings?

If you have any questions about this program or would like to know more, we can help. Simply call Meritain Health Customer Service using the phone number on your member ID Card.
