

Dear Parents:

We all made it to Fall Break! In 26 years of education, this is my first Fall Break, so I am super-excited to have this break. It is hard to believe that we are already 25% of the way through the school year. Thanks again for all of the support and help in getting me acclimated to St. Lawrence. I believe we have established an extremely positive atmosphere and an environment that is conducive to learning.

We are continuing to add to our new STEAM Center and hope to have it completed and successfully up and running by late December or early January. It is going to be an amazing addition to our school that will make us one of the leading schools in the tristate area in regards to technology. This will greatly benefit our students and offer them an incredible supplement to our curriculum.

God Bless!

Mr. Detzel

Academic Corner Each week I will try to add a new tip to help your child succeed in school.

10 Student Habits to Help Your Child Succeed in School

5. Think Positively. Being in the right mindset can make all the difference. Encourage your child to think positively when studying or heading into an exam and by all means, avoid catastrophic thinking. Help your student turn negative statements like, "I'll never have enough time to get a good grade on this exam," into positive ones like, "I began preparing later than I should have but I put together a comprehensive study plan and will be able to get through the material prior to the exam."
