General Instruction: Music is integral to the funeral rites. It allows the community to express convictions and feelings that words alone may fail to convey. It has the power to console and uplift the mourners and to strengthen the unity of the assembly in faith and love. The texts of the songs chosen for a particular celebration should express the paschal mystery of the Lord's suffering, death, and triumph over death and should be related to the readings from Scripture. Since music can evoke strong feelings, the music for the celebration of the funeral rites should be chosen with great care. The music at funerals should support, console, and uplift the participants and should help to create in them a spirit of hope in Christ's victory over death and in the Christian's share in that victory.
