### Maximum restrictions

**What is happening?**
- Strict social distancing
- Non-crucial industries closed

**Which precautions apply across stages?**
- Work that can be done from home should be done from home
- Clinically high-risk individuals who can stay at home should do so

**Which businesses are open?**
- Crucial industries with safeguarding and modifications, e.g., emergency healthcare, essential construction with social distancing

**Which social activities are allowed?**
- Socialization only with household members, family, caretakers, romantic partner
- Only leave home for limited reasons such as essential shopping and exercise

**Are childcare and education operating?**
- Child care open for children of essential workers
- K-12 and higher education engaged in distance learning

**Is public transit available?**
- Public transit with enhanced safeguards (e.g., regular vehicle disinfection) encouraged only for essential workers
- Service may be modified with off peak travel encouraged

**How do I take care of my loved ones and myself?**
- I stay at home as much as possible and check in virtually with my loved ones
- When I have to go outside, I wear a mask and stay 6ft away from others
- I call a doctor in the event of fever, cough, or shortness of breath

---

### Stages 1-3

**Stage 1**
- Restrictions relaxed on low-risk activities that may be easier to safeguard
- Residents and businesses should follow state and federal guidelines:
  - Wash hands regularly
  - Wear masks in public
  - Respect social distancing
  - Limit gatherings

**Stage 2**
- More work activities allowed with safeguarding and modifications, e.g., outdoor dining, limited personal care

**Stage 3**
- Higher-risk activities restarted with safeguarding
- Most work activities allowed at physical locations with safeguarding & modifications

---

### New normal

- Widespread use of vaccine or life-saving treatment
- In-person work can resume for all
- Measures from previous stages may be swiftly reinstated if health conditions deteriorate

---

### WHAT DRIVES STAGES?

- Health indicators: New cases; hospitalizations; use of ICU; use of ventilators
- Availability of testing and contact tracing capacity per 100,000 residents
- Healthcare system resiliency (beds, health workers, PPE)
- Ability to effectively safeguard workplaces
- Safeguarded child care, education, transit availability
- Compliance of individuals and employers
