

Switching from Staff to Family info in My Own Church

If a member at a parish is also listed as a staff member or volunteer, whom is able to see other parishioner information, they will have different options in their Connect Now login.

1. After logging into your Connect Now site. You **SHOULD** see a screen similar to below if you are able to view both your own family and other families in your parish (ie: you're a staff member)

2. If instead you see the screen below, under the **Quick Links** area indicated below, you will want to click on **Family Suite** in order to see the different tabs associated with the parish families.
