

Greetings, rising sixth graders!

Here is the summer reading list. You will find books of varying topics and reading levels. Additionally, these have always been considered high-interest or “good” books by past students. I have tried to choose books that are the first in a series or by authors who have written several high-interest works, so if you really like a book, you can easily find a similar work. Students are expected to read at least three books over the summer. One book must be from the list below, the second book can be another book from the list or a book by the same author as the first book read. The third book is to be a book of your own choosing and can be from the list or off the list..

For each book read answer the 5 W’s and H:

- a. Who is your favorite character? Why?
- b. What is this book about?
- c. Where does it take place?
- d. When does it take place?
- e. Why did you choose this book?
- f. How would you recommend this book to others?

You should head your paper with the title and author of the book.

All work, typed or neatly written in complete sentences please, will be turned in the first Friday we return.
