

Acceptable Use Policy for iPad - Grades K-3

I am the parent/guardian of a St. Mary of The Lakes School (SMLS) student who wishes to utilize a SMLS issued iPad for use during the Remote Instruction from home period.

I understand and agree that it is my responsibility to encourage my child to use this device responsibly and to help him/her understand that its use should be strictly limited to supporting his/her education at SMLS.

I understand that use of the iPad is a privilege that can be revoked by SMLS at any time if my child does not follow these guidelines.

I agree not to hold St. Mary of The Lakes School, including its representatives and employees, responsible for any inappropriate use of, or intentional damage or destruction to the device.

I agree to return the iPad and charger at a date specified by the school, at the end of the Remote Instruction from home period, in the same condition as it was received.

I agree to discuss with my child the standards that should be followed with the use of the Internet just as with other media information sources. The complete text of our Acceptable Use Policy is available for your review on the school website at <http://www.smlschool.org/technology>.
