

ST. MARK CATHOLIC SCHOOL

WHERE FAITH AND KNOWLEDGE MEET

Student Referral for Testing and Evaluation

Teachers have specific guidelines to follow in a referral process. Parents who have concerns about their student's abilities and are considering formal evaluation, should meet with their child's teachers, school guidance counselor, and administration in a team conference. Teachers may not complete parent's request for evaluation paperwork unless a team conference has taken place. All testing materials and summary forms will be sent to the testing agency designated by the parent. Testing results are kept confidentially with the counselor and are not part of the student's permanent record.

Student Screenings Available

Asperger's

Autism

ADHD/ADD

Auditory Processing Disorders

Visual Processing Disorders

General Learning Disorders (Reading, Math)
