

This message is being sent on behalf of the School Nurse to all St. Mark families registered in FACTS Family Portal.

Dear Parents: Effective tomorrow, October 28, we will no longer be checking temperatures in the morning during drop-off. The Diocese of Dallas has consulted with their medical advisers and reviewed current CDC guidelines to determine that daily campus-wide temperature screenings are not a necessary COVID-19 mitigation tool. Instead, we ask parents to assess their children for a fever each morning. Keep them home if their temperature is over 100 degrees F. Any child who appears ill or reports having any symptoms at school will have their temperature taken by the school nurse.

Thank you for your cooperation.
