July 31, 2020

Dear Parents,

It is hard to believe that tomorrow it will be August. We are continuing to prepare the school for re-opening. Our new dropoff route was lined, and our facilities staff began to install new air conditioners in our classrooms. We also ordered portable handwashing stations so that students will have additional locations to wash their hands in addition to the bathrooms. You can find a picture of these stations below.

We are putting the final touches on the Re-opening Plan Document, and plan to send it to families next week. Attached to this document is the Elective Remote Learning Model (ERL). While we cannot recreate the physical classroom within your home, the Elective Remote Learning Model allows students at-home access to teacher prepared lessons. I want to thank Mrs. Sargent and Mrs. Gallagher for collaborating with teachers to develop this plan. The goal remains to educate and enrich our students academically, socially, and spiritually.

Below you will also find a link to a brief video highlighting what elective remote learning may look like.

Enjoy your weekend.

Stay safe and well,

Christine Keeling
