

19th Sunday in Ordinary Time

Elijah laid down to die. He didn't think he had another day to live. His life was heavily burden. The Lord sent his Angel and gave him bread to eat. He got up and continued his journey through the mountain.

Sometimes we too can be over burden, financial problems, health situations, family needs, and broken relationships. As Elijah was fed the bread of life from the Lord and regained his strength, the Lord invites you to the table to receive the Bread of Life. As Elijah found new strength and purpose, you will find renewal as well.

The CDC has invited us to mask up! But they did not tell us to stop living. At public gathering you are invited to wear your mask at indoor activities. Take the precautions you need, but don't stop living, don't stop celebrating life.

Hay! Today is Polish Fest on the grounds where I reside. It's outdoors, no mask needed. We might not be serving the "Bread of Life" (actually we are, there will be an outside Mass for the workers at 12:30PM} but there will be some great Polish Sausage! The height of the activities can be found between 2:00PM and 6:00PM. Just two blocks North of Glenwood Oaks Restaurant.

Get your young one to register for Religious Education.

Let's Polka!
