November 2021

Dear Friends,

As we prepare to enter the most joyous season of Advent, the Sisters of Christian Charity reflect on how blessed they are to have your ongoing support. It is through your continued generosity that the Sisters can carry out Christ's mission. Your gifts assist the Sisters in their many works of love.

The Sisters have spent the last two years praying for an end to all the suffering the pandemic has brought to our world. Unfortunately, our Sisters are not immune to the effects of the isolation brought about by Covid-19 protocols and are looking for ways to increase their mental and physical stimulation in the upcoming year. This is very important especially for our more senior Sisters in the convent.

This Christmas the Sisters ask you to consider a gift that will help fund their needs to vitalize mind and body as we re-emerge and move forward towards more normalcy.

The Sisters would love to purchase a laptop for the living rooms of each of their eight wings. They will use them to share educational videos and programs from the internet on the large televisions where they gather to socialize and pray.

In keeping with the theme of gathering and invigoration, the Sisters would like to start a fund that will allow various programs to take place within the convent. There are many wonderful professionals that can come in and provide entertainment, education and activities that engage the Sisters through art, music, etc.

There is also a great need for transportation. The Sisters do try to assist each other as much as they can, but there are many times when they need to contact an outside source for transport to medical appointments, airport pickups, and various visits. Funds would be utilized to help with all these transportation costs as they arise. The Sisters also enjoy scenic drives that get them out of the convent where they can enjoy the beauty of nature during all our lovely seasons!

Thank you for considering a gift to the Sisters this Christmas. As always, you and all your special intentions will be remembered during this merry season. The Sisters wish to extend their love and blessings for a wonderful Christmas spent with family and friends. They continue to pray for a healthy, safe, and prosperous New Year for all.

Warmest Christmas Wishes,

Maria Rotolo
