One Month Developing Baby Your Spirituality adopted baby has been quite active over the past month. Already our baby is 10,000 times bigger than at conception. Your baby has developed the foundations of his brain, spinal cord, and nervous system by the 20th day. His heart began to beat on the 21st day and is pumping blood through its own circulatory system. The blood type can be different from his mother's. your baby is most vulnerable during the next month of being aborted. Pray that the Lord of Life might move the heart of his mother to give him the most precious gift of all the gift of life.
