The upgrade to the new, enhanced website for your employer-sponsored retirement plan at Fifth Third Bank is scheduled to be complete on Monday, August 28, 2017.

The new site offers a personalized view of your complete retirement picture and is designed to help you better understand your future retirement needs. Built on an award-winning user interface and functionality, we help make it easy to find what you want, when you want it.

Retire Inspired

Your dreams, your future, your journey - we help you get there!

At Fifth Third, our vision is help you retire well! Our goal - is to make retirement easy and attainable, help you replace - for life - the income you made while working, and to provide you with information, tools, and resources that inspire you to make better financial decisions.
Your personalized view of retirement.

Your retirement plan can help you work toward replacing – for life – the income you made while working. Here’s a quick overview of your new home page and how the new experience is focused on helping you develop a more personalized approach to reaching your retirement goal.

1. Your estimated monthly retirement income
Your estimated retirement income offers a simple view into how your current retirement plan account balance might translate into monthly income when you’re no longer working.

This hypothetical illustration is based on your current retirement plan account balance, your historical contributions and age as well as other limited factors and assumptions we’ve made for you.

2. Progress toward your goal
This number represents your estimated progress toward achieving your retirement income goal.

3. Income sources
The colored bars show the potential sources that could contribute to your estimated retirement income.

4. Compare your options
Adjust the plan savings sliders for contributions, retirement age and investment mix to see immediately how making changes may affect your estimated retirement income.

5. Reduce your income gap
Get personalized messages and next steps for additional action items to help you boost your retirement income.
Complete your retirement picture with tools you can use.

Use powerful new features like the healthcare cost estimator and how do I compare tool to put your savings in context.

### Healthcare costs

For illustrative purposes only.

One out of four U.S. employees are working past the age of 65 due to healthcare costs. The new healthcare cost estimator illustrates the potential cost of future healthcare including insurance premiums and additional out-of-pocket expenses.

You also have the option of further customizing your personalized profile to see how certain health conditions could affect your healthcare costs in retirement.

### How do I compare

![Comparison tool](image)

For illustrative purposes only.

Individuals generally have a desire to know how their efforts compare with the efforts of their peers. The new peer comparison feature illustrates how your retirement preparedness compares to peers in your age, gender or income bracket.

This information is kept confidential to you only, and is not shared.
