

Value Pharmacy Network

Chains and PSAO¹

The Value Network is composed of approximately 35,000 retail pharmacy locations nationwide. Walgreens is the major national anchor, along with other smaller chains, mass merchants, groceries, and PSAOs. We are committed to ensuring channel flexibility, offering networks that are convenient, provide savings on prescription drugs, and meet quality guidelines to help ensure medications are filled safely and effectively. In addition, the Value Network meets or exceeds nationally recognized access standards.²
