dear Padre:

The Bible on life on other planets

What does the Bible say about life outside our solar system?

The simple answer to this question is that the Bible doesn't specifically mention life on other planets. However, there are some important biblical principles that would speak to the possibility of such a discovery.

Begin with the account of creation in Genesis: "In the beginning, when God created the heavens and the earth..." (1:1). We believe that everything that exists was created by God. All stars, planets, minerals, plants, and animals flow from the creative activity of the Holy Trinity. If there is any type of life anywhere in the universe, it owes its existence to the God we worship. So if we discover plants, animals, or even ameba on some distant planet, we should praise our Creator for that life as we do our own.

Implicit in this question is the possibility of intelligent life, and not simply lower organisms. Are there possibly societies, technologies, or even churches on other planets? Again, the Bible does not really say. If we find intelligent life, it will not be any threat to our faith. Remember: we understand that we are created in the image and likeness of God (Genesis 1:26-27). If there are intelligent species out there, they in no way would challenge that unique relationship. After all, the Son of God came to the earth as one of us.

MEN'S RETREAT AT MALVERN: In today's world of 24/7 sound bites, non-stop commercials, loud music and the like, it can be difficult to hear the really important voices in our life. The Malvern Retreat House is such a place. **Join the men of the parish the weekend of August 26, 27 and 28 for their Malvern retreat.** To learn more, call Jack Harhart 610-262-8123 (or email jharhart@yahoo.com) or Richard Cuth 610-262-8045.
