

Summer Reading Alert!

Student Name: _____

Dear Parents,

St. Mary's School continues to implement the Accelerated Reader Program. We would like the students to read at least one accelerated reading book at their grade level. Please be sure that the book that they have selected is one that is on the accelerated reading list. You just have to check the AR BookFinder: <http://www.arbookfind.com>. We would like the students to be ready to take an AR test on their return to school, as well as complete a project from the book of choice. When they have finished the book, the students have the option to read whatever suits their soul. They can read a magazine, newspaper, or online reading materials.

Please have the student read at least 20 minutes every day. Reading should become a part of their lives; what better way to get them into this habit than to promote reading a bit every day. Please list the titles of the books, magazines, newspaper/website that were read on a regular basis during the summer. Parents, please sign the form before handing in to us at the beginning of next year. Pin this to the fridge and let's read!!!

My child has read at least 20 minutes every day this summer.
