

Pope Francis' Prayer Intention for November

Artificial Intelligence

We pray that the progress of robotics and artificial intelligence may always serve humankind.

Holy Trinity School is thriving in academics and as a faith community. 2020 has been a strange year, but HTS continues to help our children grow in every area of their lives including their faith. Many students are making sacraments this fall – first Penance, first Communion, and Confirmation. Our 8th graders received Bibles from the Knights of Columbus and were recognized as faith leaders of the student body. Congratulations to all and may God bless you and your families as you grow closer to Him.

Recently, our school Advisory Council invited students, parents, and staff to share how quarantine has affected their families. Get the inside scoop here!

We watched Sunday Mass on T.V. and my Grandmom who can't go to church watched Mass with us. I also got to spend more time with my family. We went for walks, had picnics, went to the shore, baked, watched movies, and played games together.
Chase, 4th grader

Quarantine turned out to be a blessing for me as a mom to five "adult" children! We were all "stuck" in the house together for the first time since they were toddlers. We watched home movies that none of us had ever seen, prepared and ate meals together, played board games, binged-watched nonsense TV, and enjoyed countless "whole family" conversations. Our uninterrupted time together was awesome.
Lori Hahn, faculty

We are happy that during this crazy time of the pandemic that we chose Catholic school because every day God is brought to the center of our hearts and minds. It helps to remember what is important and how blessed we are.
Ashley, Mom of 3rd grader

Quarantine had its ups and downs, the biggest being my husband getting sick. It felt impossible at times for me to juggle working full-time, homeschooling, taking care of a 3-year-old and 6-year-old, and caring for my husband. This experience made me even more grateful for our family, our friends, and the power of prayer.
Cindy, Mom

Our family spent a lot of time during quarantine doing small (and large) home improvement projects around our house. It was very productive and therapeutic.
Janelle, Mom of kindergartener

The pandemic strengthened our family because we were able to spend a lot of time together. My husband and I usually are always working so we were together constantly. We would play a new board game every day.
Jackie, Mom

We were really looking for a community to connect with and to make some friends. The pandemic inspired us to choose a Catholic school! Our favorite quarantine activity? We love puzzles!
Allison, Mom

I am thankful for the time that I got to spend with my family during quarantine. For six weeks we were home together with nowhere to go! We will never get that again!
Maureen, Mom

Thankful for the less hectic lifestyle. We were able to slow down and enjoy our time together as a family.
Jammie, Mom

I was happy we chose Catholic school when I saw my kids' teachers starting class with prayer even though school was virtual. For Mass during quarantine, our family has enjoyed watching the Archbishop of Chicago every week.
Bethany, Mom

This pandemic has caused me added worry and anxiety on top of life's everyday challenges, but I've realized how blessed I truly am that my family has stayed healthy and safe.
Heather, Mom of kindergartener

FYI: The Advisory Council serves to promote the institutional well-being and longevity of the school by means of marketing, academic monitoring, and spiritual support.
