**\$95.00 for 5 week session on Fridays**

**Dates: 11/1, 11/8 @ 12:15-1:15 pm (half day), 11/15, 11/22, 12/13 12:15-1:15 pm (half day)**

*All students will take home 1 custom Mini-figure*

We have all new models this year from the World of Science. This is a hands-on class where students build educational models using **LEGO® bricks, rubber bands, motors and batteries**. Students will learn about the theme of the session presented by our Bricks4Kidz instructor. Students will build the model of the day where they will use engineering and problem solving concepts. Students will have free play to expand the model or build using their imagination.

Class size is limited. All students must be registered on our website: [www.brick4kidz.com/SINY](http://www.brick4kidz.com/SINY) Click on view classes on the lower left hand side. Then register your child in the appropriate class. **When registering on line you can pay by credit card or you can send in a check to the school by 10/29 written to: BRICKS 4 KIDZ with the tear off below.** Any questions about enrolling on-line call: 718-984-5439
