DEDICATION

This seventh index to the archdiocesan sacramental records is dedicated to the memory of Mrs. Myldred Tronchet Masson Costa (1906-1992) who was the first person to assist me in translating these records and who lovingly pursued many endeavors to restore the Old Ursuline Convent and the Ancient Chapel of the Archbishops of New Orleans. Through many years she worked with me with vigor and determination as I initiated and completed the restoration of New Orleans' most historic complex under the aegis of the Archdiocese of New Orleans.

This volume is also dedicated to Miss Claire Eunice O'Donnell who has been of inestimable assistance in producing these indexes to the sacramental records and who has retired after nearly thirty years of devoted service to the Archdiocese. Her competence in many areas of the archdiocesan administration has redounded to the benefit of all of the People of God in this portion of the Lord's vineyard. All of her former co-workers join me in prayerful good wishes for her during her retirement.

INDEX to Sacramental Records 1
INTRODUCTION

The publication of this seventh volume of the sacramental records of the Archdiocese of New Orleans completes this index through Louisiana's colonial period (1718 A.D. through 1803 A.D. in regard to church registers). The completion of this series attains my initial goal of providing as much information as possible to interested parties who may not have ready access to other sources of information concerning their colonial ancestry. A total of 19,615 individual entries appeared in these seven volumes. Although the exact number of surnames cannot be easily determined because of recurring family names throughout this series, it can be conservatively estimated that well over 4,000 individual family names are listed in these colonial indices.

Having served as Chancellor of the Archdiocese for more than a quarter of a century, my retirement from active ministry will be effective as of June 30, 1992, with the fond hope that my successor will continue these series of publications into the Louisiana territorial period (1803 A.D. through 1812 A.D.)

Through the grace of God, the approval of my Ordinaries, and the cooperation of many people, I have been able to initiate, organize and supervise the development of an archival program for the Archdiocese and to house the historical archives, both administrative and sacramental, once again in the venerable old building which housed church records for so many years. This was accomplished after effecting the necessary improvements for the preservation and security of the records by slight modifications to the interior of the building and by reuse of the old vault that Archbishop Francis Janssens had constructed inside for such a purpose. Provisions have been made to protect the records and the old building against fire, theft, and vandalism. Copies of the records have been made and stored safely in other facilities as a guarantee that this valuable information will not be lost to posterity.

In the offices of the Propagation of the Faith in Paris and in Lyon, France, Father Jean-Marie Jammes, a native of France and priest of the Diocese of Lafayette, rediscovered thousands of pages of documents pertaining to the Church in this Archdiocese as well as throughout the United States. Through the leadership of his Excellency, Archbishop Oscar Lipscomb of Mobile, with myself
as coordinator and Father Jean-Marie Jammes as executor, a program was initiated to make copies of these documents - a complete set for our archives and individual collections for participating dioceses. It will take many years for these records, unavailable to American scholars for so many years, to be fully accessioned, described, translated, and scrutinized to reflect the wealth of historical data concerning American Catholicism contained therein.

Since my commission in 1970 A.D. by His Excellency, Archbishop Philip M. Hannan, to restore the old complex now known as the Archbishop Antoine Blanc Memorial, I have secured funds and work has been completed on the restoration and preservation of the buildings which include the Ancient Chapel of the Archbishops, a House of Worship constructed by His Grace, Archbishop Antoine Blanc, in 1845, and originally named Sainte Marie de l'Archeveché and the Old Ursuline Convent/Archbishop's Residence, the construction of which was completed in 1752 A.D. In 1823 A.D. the Ursuline Nuns deeded the property to the Bishops who resided in the old edifice until 1899 A.D. and maintained the Chancery Office there until 1913 A.D. when it became a rectory serving the Ancient Chapel which later became a parish church.

It is with confidence that I note that our present Ordinary, His Excellency, Archbishop Francis B. Schulte, will insure that the most historic premises in the Mississippi Valley and the precious church records housed here will be well cared for, that these records will be made available for more scholarly research, and that visitors may be enabled to view the interior of the old building which has taken me so many years to restore.

Volume Seven

This seventh volume includes all extant surname baptisms, marriages, and funerals that were recorded at St. Louis Cathedral in New Orleans, St. John the Baptist Church on the upper German Coast (now Edgard), St. Bernard Church at New Galvez (St. Bernard Civil Parish), and the Royal Military Hospital in New Orleans between January 1, 1800, and December 31, 1803, as well as a few pre-nuptial investigations at St. Bernard Church in Galveztown, Louisiana.

The index follows archdiocesan policy concerning the confidentiality of sacramental records. These records were created for sacramental reasons and thus record information valuable and
necessary for these sacred purposes. This index follows the policy of the archdiocesan archives by not including information about race or legitimacy.

Certificates issued by the archdiocesan archives carry the following notation:

_This entry was recorded as a sacramental record and not as a vital statistic. This certificate faithfully reproduces information contained in original entry, but does not certify the accuracy of the information in this entry._

Information in colonial records was often provided to the recording priest by family members, sponsors, friends, or acquaintances. Most often, the priest recorded names as he heard them. First names such as Pierre and Marie became Pedro and Maria; surnames often underwent a similar transformation. In addition, the accuracy of the information depended on the memory of the priest, family, or friends. There was little or no concern for "correct" spellings nor for documentation of this recorded information. In several cases, as noted below, the priest received uncertain or contradictory information from several attendees.

This volume is intended to assist those who seek information from the archives of the Archdiocese of New Orleans concerning their ancestors. The book is a complete index for all surnames found in these records between 1800 and 1803. This volume will relieve the researcher of the need to request a general search for a New Orleans area ancestor. Surname entries that do not appear in this index are not found in the archdiocesan records for this period.

A copy of archdiocesan policies concerning sacramental records is available upon request.

Format and Content

The format and content of this volume are shaped by its purpose. This book is an index to sacred acts - baptisms, marriages, and funerals - that were recorded at St. Louis Cathedral in New Orleans, St. John the Baptist Church on the upper German Coast (now Edgard), St. Bernard Church below New Orleans, and the Royal Military Hospital in New Orleans for sacramental purposes. There are no records from St. Charles Borromeo Church (Destrehan) for these years; the records of St. Bernard Church in the former Galveztown, Louisiana, now housed at the archdiocesan archives contain a few pre-nuptial investigations for this period.

Only those records with a decipherable surname are included. In some cases, the surnames are lost; in others, no surname was recorded, as in the case of some slaves, free persons of color, unnamed children, and adult strangers.

The 2,570 entries in this index under 1,483 main surnames include baptisms, marriages, and funerals registered between January 1, 1800, and December 31, 1803, in eighteen sets of original records.

1. [St. Louis Cathedral Baptisms, 1796-1802] numbers 368 pages and is coded SLC, B14. This volume appeared in past published indices as Baptismal Book 3. It includes baptisms that were recorded from April 3, 1796, to March 7, 1802.

2. [St. Louis Cathedral Baptisms of Slaves and Free Persons of Color, 1798-1801] numbers 463 pages and is coded SLC, B15. This volume was originally listed as Baptismal Book 6a. It includes baptisms of slaves and free persons of color from May 5, 1798, to May 27, 1801.

3. [St. Louis Cathedral Baptisms of Slaves and Free Persons of Color, 1801-1804] numbers 463 pages and is coded SLC, B16. This volume was originally listed as Baptismal Book 7a. It includes baptisms of slaves and free persons of color from May 30, 1801, to September 11, 1804.

4. [St. Louis Cathedral Baptisms, 1802-1806] numbers 270 pages and is coded SLC, B17. This volume was originally listed as Baptismal Book 4. It includes baptisms from March 8, 1802, to April 26, 1806.

10. [St. Louis Cathedral Funerals, 1803-1815] numbers 620 pages and is coded SLC, F7. It includes funerals from December 28, 1803, to August 28, 1815. First 63 entries overlap (but do not exactly match) the initial entries of F6 and were reconstructed in mid-1804 from funeral expenses when F6 was temporarily lost.

15. [St. Bernard, New Galvez, Baptisms of Slaves and Free Persons of Color, 1787-1857] numbers 296 pages and is coded SBSB, B1. This volume was previously (and erroneously) listed as St. Louis Cathedral, B1a. It includes baptisms of slaves and free persons of color from February 15, 1787 to May 10, 1857.

16. Libro segundo de bautismos de blancos de esta parroquia de San Bernardo de Nueva Gálvez, que da principio en primero de enero de 1801 y concluye en [1851] numbers 357 pages and is coded SBSB, B2. It includes baptisms at St. Bernard, also called New Galvez and English Turn, from January 1, 1801, to May 13, 1851. [Book One (1787-1801) in this series has been lost - ed.]

17. [St. Bernard, Galveztown, Baptisms, Marriages and Funerals, 1783-1803] numbers 40 loose sheets in a loose-leaf binder and is coded SBGAL, B4. These pages include baptisms, marriages, pre-nuptial investigations, and funerals from 1783 to 1803. Earlier volumes [B1 - 3] are housed in the Archives of the Diocese of Baton Rouge; indices to these records have been published as part of their series, Diocese of Baton Rouge: Catholic Church Records.

18. [Death and Burial Records of Soldiers Who Died at the Royal Military Hospital in New Orleans, 1786-1796] numbers 325 used pages and is coded RHNO, F1. It includes funerals of soldiers and convicts from August 17, 1786, to April 17, 1796, plus several later entries (including one in 1801).

The above coding system was necessitated by the use of a computer to index and edit records. To avoid confusion with older volume numbers (e.g., St. Louis Cathedral Baptismal Books III, 3 and 3a), those requesting certificates from St. Louis Cathedral registers should indicate both the volume number and the dates (e.g. St. Louis Cathedral Baptismal Book 4, 1802-1806).

One sacramental register is not included in this index: Libro primero de confirmaciones de esta parroquia de San Luis de la Nueva Orleans: contener folios y de principio al folio 1, consigne hasta que [?] Dios Nuestro Señor...ea servido...confirmaciones. A translation of this book of confirmations from 1789 to June 27, 1841, was published in 1967 by the Genealogical Research Society of New Orleans. At the time, the volume was already badly deteriorated in sections; further deterioration presently precludes a new, more scholarly translation.

Significant gaps in the Catholic sacramental records for this period continue. All the sacramental records from St. Charles Parish on the German Coast for these years are lost. The early St. Bernard, New Galvez, baptismal (1787-1801) and marriage (1787-1821) registers are also lost. Some St. Bernard ceremonies
for this period were originally recorded at St. Louis Cathedral, e.g. 1803 baptisms performed in private homes. The Royal Hospital records end abruptly on April 17, 1796; one 1801 record is found on the several loose sheets in the volume and is included here. The St. Louis Cathedral and St. John the Baptist records for this period are complete.

The symbol "**" indicates those parts of a record that are now lost. Fortunately, this symbol appears infrequently for this period. If readers have official certificates that include information which is presently illegible, they are asked to send photocopies to the archives.

Each entry in this index includes the following information when it forms part of the original record: the person's name; date of ceremony; place of ceremony (when different from church where ceremony was recorded); type of ceremony (baptism, marriage, funeral); date of birth; occupation; age; parents' and grandparents' names; noble titles; and marginal notes concerning status and date of death. The city, region, and when mentioned, local Catholic parish of birth and residence, are also listed. Occasionally, the 19th-century cathedral clergy noted the death, marriage, or later surname of a long-time parishioner next to the original baptismal entry. Such information is included as a "marginal note."

This index generally does not include causes and circumstances of death - sometimes colorful information that increasingly formed part of interment records and will later be an integral part of cemetery records. For instance, Italian-born Francisco REAL was found dead in his home on February 2, 1800, after a hard freeze. Guillome CARMON died on a barge en route to Natchez and was buried in St. John the Baptist Cemetery.

Three exceptions are made to the above guideline. First, information on those such as Vicente APARICIO, Jose BALDRIGUE, Maria Margarita DESHAYES, or Maria Eloise LAVIGNE who died at the Ursuline Convent, the Royal Military Hospital, or Charity Hospital is included. Secondly, information on those buried outside the parish cemeteries (e.g. St. Louis Cathedral, the Leper Hospital cemetery, Bay St. Louis) is also included. Among the many people of both sexes and all ages buried in St. Louis Cathedral were Pedro DE MARIGNY, Francisco RAGUET, Isavel Zara MOORE, together with her young daughter, Sara Juana, and Andrea Antonia ALMONESTER Y ROXAS who was buried beside her father. In addition, Canon Pedro PEREZ-GUERRERO (1803) and Fathers Mariano DE BRUNETE (1801), Luis DE QUINTANILLA (1801), Flavian DE
BESCANON (1802), and Constantine MACKENNA (1803) were all buried in the cathedral. Thirdly, those individuals, particularly children, who died of smallpox or smallpox inoculation during the 1802 epidemic are indicated.

The amount of information in each record varied greatly. When a particular detail is not found in an entry, this signifies that it was omitted in the original record or is presently lost or illegible [*].

During this period, the Spanish clergy continued to list grandparents of a newly-baptized infant or child, often including details concerning their status, place of birth, or current residence. A single 1800-1803 entry can open the door to the birthplaces of all four grandparents. For instance, Juan Bautista Theodulo BERMUDES’ grandparents were natives of Jaen in Andalucia, Lisbon in Portugal, Quercy in France, and New Orleans. With the arrival of Father Geronimo BLACE at St. John the Baptist in January, 1801, the practice of recording grandparents was extended to this parish.

Several sacramental acts from earlier years and other locations were recorded during this period and are found in this index under BERDON, CROCHRAN, DE CLOUET, DE LA PENA, MOLINA and NICOLAS. Each was recorded at the parties’ request.

Spanish continued to be used exclusively by the clergy for recording sacramental records during this period. One result was the almost exclusive appearance of Spanish first names (Estevan, Pedro, Margarita, Juana) as well as the occasional Spanish variations of familiar French names, e.g. LORENZO for LAURENT. Carlos TREMOULET’s grandmother was listed as Julia MAISONNEVEU or CASANUEBA.

Some of the newly-arriving clergy were unfamiliar with local names. This volume includes many unusual variations of names that had appeared frequently in earlier volumes. FERRIER became JERIEL, GENTILLY DREUX became SANTILLI DRUL, SEINEIDRE, always a stumbling block to both French and Spanish clergy, became CHECSNYDER, SHEKSNEL and SNYDER, POWER became PAUVER, and DEVENICE BIENVENU became BIENVENV DEBRISCI. Yba NANQUIN, the mother of Luisa Maria Euphemia DAIGLE, was recorded as [o] OLINATIEN. Maria Rosa TALON, the grandmother of Constanza HENNRY, was originally recorded as Maria ROSTALON, and then corrected. Father Pedro DE ZAMORA became completely confused in recording the grandparents of Joseph Emond JACOB. Place names suffered the same fate at the
the hands of some newly-arrived clergy. Kentucky became Quentok or Quintouky, while County Tipperary in Ireland became Contitiprer. Father Antonio DE SEDELLA apparently often checked (and not infrequently corrected) the entries of his colleagues. In this volume more than in previous volumes, entries should be carefully reviewed for possible phonetic variations.

Information contained in marriage records is divided between entries for the two spouses. Personal information is included under each spouse’s name, whereas the witnesses are listed only in the husband’s entry. The reader must examine both the husband and wife’s entries to find all the information contained in an individual marriage record.

Legible witnesses are listed for marriages; sponsors, for baptisms. The index does not include additional baptismal witnesses beyond the parents and sponsors; such witnesses appear only in scattered entries.

All extant records with surnames are found in this index. Researchers who do not find colonial ancestors here after reviewing various possible spellings can presuppose that the ceremony was not recorded or that the record has perished.

In general, this index continues the conservative policy of combining surname variations only when there is some concrete indicator (same parents, spelling variation within a record, evidence from previous records). Thus, numerous similar names are not combined - ESCO with ESCOT; FORNERET with FURNERET; HEVIA with DE HEVIA; JOLY with JOLLY; MORALES and DE MORALES. Undoubtedly, many similar names refer to the same family.

All legible surname variations of those baptized, married, or interred are added after the preferred family name. Surname variations of parents, witnesses, and sponsors are NOT indicated under the main surname entry, but rather are included with each individual record. Common, modern spellings are not added, e.g. MILLIGAN with MILHIGAN; EDELMeyer, with AYDLAMER.

On occasion, a wife or widow such as Justina MILO, Catharina SANCHES, or Maria Juana THOMAS was listed only under her husband’s name rather than her maiden name.

As a general principle, the preferred spelling was taken first from a legible signature, then from the main text entry, and, finally, from the marginal note. Personal signatures of parents and
witnesses appear much less frequently during this period. Where
different signatures or main entry names appear, the most frequent
spelling was adopted. The application of this principle resulted in
some main surname entries listed differently from those in earlier
volumes: DUFOUCHARD DEGRUIS of earlier volumes under
DEGRUIS [@DEGRUYS] in Volume 7; MASICOT, under
MAXICO; VOLANT, under BOLLANT.

In general, English city and town spellings are used for familiar
locations. Vague, uncertain, and often-used small town names are
left in the original, sometimes with an indication the town, village,
or post that the person was trying to express to the priest. Thus
Las Arcas is indicated as Arkansas; Islas Negras, as Illinois.

It is customary in critical editions of texts to indicate
misspellings, grammatical mistakes, and historical inaccuracies
with [sic] or [?]. Except for very unusual cases, this notation is
omitted. Thus [sic] is used to indicate that Anna Maria Rosalia de
los Dolores GELLY was listed as a native of Nova Scotia in the
United States of America; Francisco DURAND, a native of
Montreal in Acadia; Juan Luis DEGL [DAIGLE], a native of Pue
tu [?]. On several occasions, [sic] is also used to indicate a
parental surname that bears no similarity to that of the child or a
first name such as Jhon or Luia that can easily be seen as a data
entry error.

In many entries, priests, witnesses, and sponsors wrote in a
hand that formed different letters in exactly the same way. U/N,
U/V, C/B, S/Z, A/O, and E/C are common instances where the
letters are simply indistinguishable. This uncertainty must be kept
in mind, particularly in regard to unfamiliar surnames.

The Spanish priests also used numerous variations that were not
evident during the French period. "B" and "V", "W" and "V," as
well as "S", "Z" and "C" are often used interchangeably. VELl
is also BELE, VOLANT is BOLLANT, WEBER is VEIBER. "H"
appears and disappears before such vowels as "A" and "E", while
"X", "G", and "J" are all pronounced as "H" and thus are
sometimes used interchangeably in entries. "I" is often replaced
by "Y" in Spanish entries. ELFRE also appears as HELFER:
HARDY, as ARDY; ENGLE, as YNGLE; GIRADIN, as
JIRADIN; HYMEL, as YMELE; XIMENES, as GIMEZ;
YSNARD, also as GINARD, HISNARD, ISNARD, and JINARD.

On several occasions, priests noted that the information they
received was uncertain or contradictory. Thus Juan COUTARD
was reportedly from St. Malo and a bachelor; no information on
Agustin DEMARCA’s place of birth in France was available; it
was not certain if Thomas MORIS was actually called Thomas
MAURICIO. Father Antonio DE SEDELLA noted that Maria LABE's place of birth was Paris according to some, but Santo Domingo according to others.

In four separate cases, surnames are cross-referenced: for those who assumed new names; for significant spelling variations; for combination names; and for maiden-married names of deceased women.

Surname variations in which the first letter differs are cross-referenced (e.g. BEAUCLE with PEAUCHE; GINARD with JINARD; VISCOCHEA with BESCOCHEA).

Among the many combination names that are cross-referenced are: AMIRAUD DUPLESSIS; FAVRE-DAUNOIS; MALERIN GUTIERRES; GARCIA CAPETILLO; and LOPEZ DE LA PENA.

Because of the frequent variations that occurred involving the addition or omission of "De," "Le," and "La," researchers should routinely examine these possibilities. Thus, DE ALPUENTE is found under ALPUENTE; COUP under DE COUP; GROS under LEGROS; and SASIE under LESASIE.

During these years, priests referred to the many young children who died simply as parvulo or parvula. Although there was some subjectivity on the part of the priests, these children seem to all have been under the age of two. They are referred to in this index as "very young child."

The surnames of deceased spouses of widowers and widows who remarried are not cross-referenced.

For additional information on the use of this index, reference should be made to the INTRODUCTION to Volumes 1 through 6 of this series.

Historical Notes

The sacramental records for this brief period reflect the many nationalities found in the Louisiana colony. The stable settlement at St. John the Baptist included mostly second, third, and fourth generation families. The priests at St. John the Baptist usually assumed (and omitted) information on place of birth and residence.

St. Louis Cathedral in New Orleans, in contrast, was an ethnic and racial melting pot of parishioners from Louisiana as well as Europe, Africa, and the American colonies. The 1800 sacramental records reflect this diversity.
In 1800, 724 children and adults were baptized at St. Louis Cathedral - 373 slaves (52%), 225 whites (31%), and 126 free persons of color (17%). A quarter of those of African and mixed blood parentage were free persons. Many adult slaves continued to be baptized at the cathedral, particularly on or near Easter Sunday.

Among the children with surnames whose parents’ place of birth was designated or identified through previous records, 179 mothers (80%) were Louisiana natives; another 14 (6%) were born in France and 4 (2%), in Spain. Another 8% were natives of the Canary Islands (8), Cuba (3), and the United States (6). The remaining 4% came from Germany (2), Ireland (1), Santo Domingo (4), Yucatan (1) and Switzerland (1).

Many more men, on the other hand, were foreign-born. 102 fathers (45%) were Louisiana natives; 62 (27%) were born in France and 28 (12%), in Spain. Another 6% were natives of the Canary Islands (5), Cuba (4), and the United States (4). The remaining ten percent came from Italy (4), Mexico/Yucatan (3), Canada (2), Scotland (2), England (2), Ireland (2), as well as one each from Martinique, Flanders, Prague in Bohemia, Majorca, Santo Domingo, Cueto in Spanish Morocco, and Puerto Rico. Ninety-six percent of the Louisiana-born husbands were married to Louisiana-born women, while only 54% of the wives had Louisiana-born husbands. When all the parents are included, almost half (48%) of the children baptized at St. Louis Cathedral had parents of different nationalities. These figures include at least sixteen cases were parents were counted twice as they had more than one child baptized at the cathedral in 1800.

Fifty marriages took place at St. Louis Cathedral in 1800 - 46 between whites, 3 between free persons of color, and one between slaves. Fifteen of the white couples were both from New Orleans; another three, from the Louisiana province (Mobile, Bay St. Louis, Illinois, the German Coast). The slaves were both members of the Chamba tribe. In the other 31 marriages, the two spouses were natives of different countries. While 82% of the women (35 from New Orleans, 6 from province) were natives of the Louisiana colony, only 40% of the men (16 from New Orleans, 4 from the province) were born in colony. The other women came from France (3), Spain (2), as well as Africa, Santo Domingo, the Windward Islands, or the Canary Islands. The other men came from France (9), Spain (7), North America - Pennysylvania, New Jersey, New York - (4), Cuba (3), Canada (2), as well as Africa, Italy, Ireland, Mexico, and Martinique.

Among the 242 people whose deaths were recorded at St. Louis Cathedral in 1800, 76 were whites, 55 were free persons of color,
and 111 were slaves. One-third of those of African or mixed blood were free at death, including 23 young children. The most striking statistic among all the 1800 cathedral records is the fact that 18 of the 37 people of African or mixed ancestry who died at age 50 or older (51%) were free. Of those who died in 1800, 108 (45%) were clearly identified as small children, usually under the age of two. Fifteen people (9 free persons of color, 3 slaves, and 3 whites) had reached the age of 70 or older.

Of the nine surnames with the most entries in this volume, five - CAMBRE, FOLSE, HAYDEL, HYMEL, and VICKNER - were early colonial families who remained exclusively (or, in the case of CAMBRE, almost exclusively) on the second German Coast around St. John the Baptist Church. Another two - LAURENT and CHAUVIN DELEY - were French colonial families who remained in the New Orleans area. The remaining two surnames - GONZALES and RODRIGUES - were mostly of Spanish origin and appeared in the records of several churches, particularly in New Orleans. RODRIGUES [@RODRIG, RODRIGUE, RODRIGUEZ], in addition to the various families from Spain and its colonies, also included an earlier French colonial family that had settled on the German Coast.

The material for this period also reveals some interesting background on the records themselves. The BOULIGNI-LEBLANC marriage was originally recorded in the register of the Louisiana Infantry Regiment; Jose GIL’s age at death was taken from a similar regimental register. These books are not found among the New Orleans sacramental registers. Manuel DOMINGUEZ’s name was also listed as Manuel DOMÍNGUEZ ARGODINO in the records of Charity Hospital which were apparently checked on a regular basis for interment information. On February 20-21, 1803, Fr. Pablo FRANCO, chaplain of the warship Diligencia, baptized ten children in the Plaquemines area below New Orleans; the original ceremonies were recorded on two loose pages. When Fr. Antonio DE SEDELLA entered the ten baptisms in the cathedral register on March 12-13, the records read as if Fr. Antonio himself had baptized the children at the church.

Several baptisms reflected personal family devotions that were at variance with European church law. Luis DE CLOUET and Francisco GALLARD had as their godfather St. Francis of Assisi; Clara Maria GONZALES DE RUEDA and Maria Luisa LEBLANC had the Blessed Virgin Mary as their [powerful] godmother. On several occasions, the priests of the cathedral acted as godfather to infants.
As in earlier volumes, the sacramental entries continue to provide interesting bits of historical information, especially Father Antonio DE SEDELLA’s increasingly-frequent historical notes. Prior to his brief description of the noon ceremonies on November 30, 1803, by which Louisiana was retroceded to France, Father DE SEDELLA noted that Francisco Justino VIGNAUD was baptized that same morning at 8:30 A.M. and was thus the last Spanish subject to be baptized at the cathedral. The death of the five priests mentioned above provides further insight into the clergy shortage following the bishop’s departure in 1801.

When Pierre ROCHE died at the age of 99 (1800), it was noted that he was one of the colony’s first settlers. Vizente LLORCA who died in 1803 was the cathedral organist and cantor. Jose, a former slave from Senegal who died a free man at Charity Hospital on June 13, 1800, was reported to be 110 years old. Luis Pablo DAUPHIN was among the large group of refugees who arrived in New Orleans in mid-October, 1803, after fleeing the Santo Domingo uprising; he died a few days later. Fourteen sets of twins are listed in this volume; it is noteworthy that no triplets were listed in this or earlier volumes.
